## About

I am a bachelor's degree holder in Information Security and a front-end programmer. I have developed 4 projects using React.js and Next.js technologies, including a banking system, a weather application, a currency converter, and an admin panel. I have implemented the XSS vulnerability protection and JWT-based authentication mechanism for the admin panel of CBC TV Azerbaijan. I have a deep interest in secure web programming and have deep experience in IT support at international events such as COP29, WTDC-25, and WUF 13.

## Work experience

### Front-end Developer Intern — CBC TV Azerbaijan

February 2026 – July 2026

Baku, Azerbaijan

- Development of functional and adaptive admin panels based on React.js and Next.js for the TV channel's internal management systems.
- Cleaning user input with DOMPurify and ensuring that the admin panel is protected against XSS vulnerabilities.
- Integration of JWT (Access/Refresh token) authentication mechanism, secure storage of tokens with HttpOnly Cookie, and Axios interceptors..

### Front-end Developer Intern — Lucebra

May 2025 – September 2025

Baku, Azerbaijan

- Development of reusable UI components and functionalities for the admin panel using React and Next.js technologies.
- Creating responsive layouts and improving UX on control panel pages.
- Collaborate with the programming team via Git and GitHub for version control.

## Volunteer experience

### ICT Support Volunteer — WUF 13

May 2026

Baku, Azerbaijan

- Providing IT infrastructure support for online registration and accreditation processes of foreign delegates during international events.
- Rapid resolution of network connectivity issues and maintenance of local network stability.

### ICT Support Volunteer — ITU WTDC-25

November 2025

Baku, Azerbaijan

- Providing IT support and configuring devices for delegates during a global telecommunications conference.

### ICT Support Volunteer — COP 29

November 2024

Baku, Azerbaijan

- Supporting the ICT team in managing network and security operations.
-

## Education

---

### Azerbaijan State Oil and Industry University

*Faculty of Information Technologies and Management, Information Security specialization — Bachelor's degree | September 2022 – June 2026*

- Graduation thesis: Security architecture for a React.js-based admin panel (XSS protection, JWT authentication, CSP/CORS policies).

### Code for Future — Algoritmika

*Front-end Developer Course — 100% result | February 2025 – June 2025*

## Hard skills

---

- Programming Languages: JavaScript, TypeScript
- Frontend Development: HTML5, CSS3, React.js, Next.js, Material UI, Tailwind CSS, Shadcn UI, Responsive/Adaptive Design, Axios
- Backend & DevOps: Node.js, REST APIs, Git, GitHub
- Cybersecurity: Kali Linux (Burp Suite, Wireshark, Nikto, Nessus), TCP/IP, DNS, HTTP/HTTPS, Web Application Security
- Databases: MS SQL Server, SQL Queries
- Testing Tools: Jest, React Testing Library, Postman, OWASP ZAP
- Other Tools: MS Office (Word, Excel, PowerPoint)

### • Soft skills

- Research and provide suggestions for the application of new technologies;
- Ability to work in a coordinated team with a high sense of responsibility and focus on common goals;
- Ability to work with technical documents and analyze problems;
- Teamwork and responsibility;
- Ability to solve problems flexibly under tight schedules and high pressure;

## Languages

---

- Azerbaijani — Native
- English — C1 (IELTS 7.5)
- Turkish — C1
- German — A2
- Russian — A2

## Certificates

---

- **Certificate of Achievement (Frontend Developer)** — For successfully completing the Frontend Developer internship (Lucebra)
- **Certificate of Honor** — For successfully completing the Frontend Developer course (Algorithmics / #CodeForFuture)
- **Certificate of Completion** — "Modern Web Development Course | From Zero to Advanced" (Udemy)
- **Certificate of Completion** — "Learning SQL Server with Applications: A to Z" (Udemy)
