Professional Summary

Frontend Developer and Cybersecurity Master's student with hands-on experience building admin panels and web applications with React.js and Next.js. Implemented XSS protection and JWT-based authentication for the CBC TV Azerbaijan admin panel. Built 5 projects, including a banking system, weather application, currency converter, security scanner and admin panel. Additional ICT support experience at international events: COP29, ITU WTDC-25 and WUF13.

Work experience

Frontend Developer Intern — CBC TV Azerbaijan, Baku *February 2026 – July 2026*

- Developed responsive admin panels with React.js and Next.js for the TV channel's management systems.
- Sanitized user input with DOMPurify to protect the admin panel against XSS vulnerabilities.
- Implemented JWT authentication (access/refresh tokens) with HttpOnly cookie storage and Axios interceptors.

Frontend Developer Intern — Lucebra, Baku *May 2025 – September 2025*

- Built reusable UI components and features for an admin panel using React and Next.js.
- Created responsive layouts and improved UX on control panel pages.
- Collaborated with the development team using Git and GitHub for version control.

ICT Support Volunteer — WUF 13 *May 2026*

- Provided IT infrastructure support for online registration and accreditation of foreign delegates.
- Resolved network connectivity issues and maintained local network stability.

ICT Support Volunteer — ITU WTDC-25 *November 2025*

- Provided IT support and configured devices for delegates at a global telecommunications conference.

ICT Support Volunteer — COP 29 *November 2024*

- Supported the ICT team in network and security operations.

Projects

Weather App — JavaScript, REST API weatherapp-project-81.vercel.app

- Built a weather application with location search consuming a weather REST API.

Currency Converter (Extended Currencies) — JavaScript, REST API currency-live-theta.vercel.app

- Developed a real-time currency converter in JavaScript with live exchange rates across 12 currencies (AZN, USD, EUR, RUB, GBP, TRY and others).

Currency Converter — JavaScript, REST API currency-converter-project-alpha.vercel.app

- Built a banking-style currency converter interface supporting RUB, USD, EUR and GBP conversion.

Portfolio Website — React, Next.js, Tailwind CSS emilkazimovdev.vercel.app

- Designed and developed a personal portfolio with a custom dark neon design system and animations, deployed on Vercel.

SecScan (Security Scanner) — React, Next.js, Tailwind CSS secscan-app.vercel.app

- Engineered a modern web security scanning tool with real-time vulnerability detection features

Education

- **Azerbaijan State Oil and Industry University** *September 2026 – Present*
  Faculty of Digital Technologies, Cybersecurity — Master
- **Azerbaijan State Oil and Industry University** *September 2022 – June 2026*
  Faculty of Information Technologies and Management, Information Security — Bachelor
- **Code for Future — Algoritmika** *February 2025 – June 2025*
  Frontend Developer Course

Technical skills

- Languages: JavaScript, TypeScript, Python
- Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Material UI, Shadcn UI, Responsive/Adaptive Design
- Backend & Tools: Node.js, REST APIs, Axios, Git, GitHub
- Security: Web Application Security, Burp Suite, OWASP ZAP, Wireshark, Nikto, Nessus, Kali Linux, TCP/IP, DNS, HTTP/HTTPS
- Testing Tools: Jest, React Testing Library, Postman
- Databases: MS SQL Server, Oracle SQL, PostgreSQL

Languages

- Azerbaijani (Native)
- English (C1, IELTS 7.5)
- Turkish (C1)
- German (A2)
- Russian (A2)

Certifications

- **Front-End Developer Professional Certificate –** Meta, 2026
- **Cybersecurity Professional Certificate –** Google, 2026
- **Frontend Developer (React) —** HackerRank, 2025
- **Frontend Developer** — Lucebra, 2025
- **Frontend Developer Course (Honors) —** Algorithmics, #CodeForFuture, 2025
- **Modern Web Development: From Zero to Advanced —** Udemy, 2024
- **Learning SQL Server with Applications: A to Z —** Udemy, 2024
